Gentlemen:

The U.S. Department of Energy (DOE) is pleased to transmit the enclosed Draft Preliminary Data Quality Objectives for the proposed Industrial Area Sampling and Analysis Plan. The Data Quality Objectives (DQO) have been established to review existing Industrial Area data, identify data gaps, and define additional sampling and analysis. The DQO were identified through discussions in the Risk Assessment Working Group from DOE, Kaiser-Hill Company, L.L.C., Rocky Mountain Remediation Services, Environmental Protection Agency, and Colorado Department of Public Health and Environment staff. The DOE requests that your agency organizations review these DQO by March 13, 2000.

If you should have any questions related to these DQO, please contact Norma I. Castaneda at (303) 966-4226 or contact me at (303) 966-5918.
